most specyally of the Realme of Englonde, brevely compyl'd; and
empryntyd in Chepesyde, &c. by John Reistall.
This is one of the scarcest Histories we have in Print; *Anthony*
Wood mentions it by a *Latin* Title, but never saw it; and Bishop
Nicholson declares he did not know where to find it: Its Title
might conduce to its Obscurity among solid Readers; and the
Slenderness of the Volume, seldom probably defended in stiff
Covers at its first Appearance, to the Destruction of the Copies.
It begins with the earliest Times, and ends at the Death of
Richard III. to whom, from William the Conqueror, there are
large wooden Prints of every King at their full Length, to the
Extent of the Page: There are other Singularities in the Method
and Decoration of the preceding Part. In the Reign of Henry
IV, speaking of the value of Money in Richard II's Time, he
says, in those Days 5 Groats made an Ounce, and now at this
Day, 21 Henry VIII. 11 Groats make an Ounce; whence we
learn it was written in 1530, and then, or the Year following,
printed. See T. Hearne's Preface to Robert of Gloucester's
Chronicle, page 33, where the great Scarceness of this Book,
and particularly the Fairness of the Harleian Copy, is taken
notice of. See also in Hearne's *Cat. Vindiciae Acad. Oxon.* Vol.
II. p. 803 and 804, a further and more ample Account of this
Chronicle.
